

Tashkent State University of Economics

Complex Work Plan

**Of “University 3.0” International educational and scientific innovative research center
For 2020/2021 Academic year**

*Approved by the decision of the Council of the Tashkent State
University of Economics dated June 1, 2020 No 22*

GENERAL DEVELOPMENT GOALS OF THE UNIVERSITY

2. Implementing "E-university" concept

3. Preparation of analytical reports with doctoral students, independent researchers and talented students

4. Strengthening the activities of the center, coordination of the implementation of economic contracts at the departments

5. Carrying out research aimed at ensuring the socio-economic development of the regions

6. Active participation in international and national research projects and grants

1. Enhancing of educational, scientific research and innovation activities of departments

Strategy for 2020/2021 Academic Year

7. Timely implementation of decisions of the Government, the Ministry and the University Council

Development of innovative methods to increase the effectiveness of lessons

Implementation of the campaign "One department - one scientific project", "One faculty - one foreign scientific-practical grant"

Development and promotion of scientific and methodological manuals, the establishment of laboratories and the strengthening of its activities

Organization of workshops on the publication of articles in national and international scientific journals (Scopus, Web of Science)

Organization of work schedule in accordance with the requirements of international rating agencies QS, THE, ARWU

Take steps to integrate the e-science journal "Economics and Innovative Technologies" into the Scopus database

Inclusion of written works prepared by the university staff in the Google Scholar database and improvement of the official website as required by Webometrics

PURPOSE AND ACTIVITY OF "UNIVERSITY 3.0" CENTER

Section I

INCREASING PROFESSIONAL SKILLS, SCIENTIFIC COMPETENCE AND ACTIVITY OF PROFESSOR-TEACHER AND RESEARCHER

№	Measures	Completion time	Responsible persons	Funding volume
1.	Gradual transition to the teaching of special subjects in English, the organization of the search and training of young, talented professors and teachers with high qualifications, fluent in English, including: - In the 2020-2021 academic year - 30% - In the 2021-2022 academic year - 40%	According to the plan for 2021-2022	Educational-methodical department, Information technology and Scientific department, deans, heads of departments	No funding required
2.	Implement advanced forms of internships and advanced training for faculty and researchers, their internships in ministries, departments, institutions and organizations, as well as in universities, research centers and specialized institutions of leading foreign countries (including foreign grants) organization.	February-March 2021	Staff of the center, Educational-methodical department, Information technology, Scientific department, deans, heads of departments	El-Yurt-Umidi Foundation estimates that the university will spend an average of 200.0 million each academic year. in the amount of UZS
3.	In order to encourage university professors and researchers to constantly improve their skills, to organize an annual competition of departments with professors and researchers and regular financial incentives for the winners "The best researcher of the year" and "Scientist with the highest Hirsch index of the year" competitions)	During December 2021	Vice-Rectors for Academic Affairs, Research and Innovation, Staff of the Center, Educational and Methodological Department, Scientific Department, Deans, Heads of Departments	An average of 50.0 million is spent each school year. in the amount of UZS
4.	Establish a system of active participation in research projects and international grants of the Ministry of Innovation Development. Implementation of actions "One department - one research project", "One faculty - one foreign scientific-practical grant" by each department	According to the annual plan for 2021	Vice-Rectors for Academic Affairs, Research and Innovation, Academic Department, Scientific	No funding required

			Department, Deans, Heads of Departments	
5.	To organize special seminars with the participation of experts from the international database Web of Science, Science Direct, Springer Nature in order to further strengthen education and research at the University	In January, March, April 2021	Employees of the center, Scientific department, deans, heads of departments	Based on extra- budgetary funds
6.	Funds and economic agreements to the Development Fund to support and develop the research and creative initiatives of young scientists of the University, the acceleration of paid educational services, the attraction of grants from foreign educational institutions	During the 2020/2021 academic year	Director of the center, deans, heads of departments	500.0 million annually. in the amount of UZS

Section II
INCREASING THE VOLUME AND EFFICIENCY OF RESEARCH

№	Measures	Completion time	Responsible persons	Funding volume
7.	Critical study of the main scientific topic of the university on the basis of the priorities identified in the address of the President of the Republic of Uzbekistan Sh. Mirziyoyev to the Oliy Majlis, re-approval of it based on the priorities of the economic system	Regular throughout 2021	Employees of the center, heads of departments	No funding required
8.	Further increase the scientific capacity of state professors and teachers, including increasing the share of scientific potential in the coming years to the following levels (currently achieved 45.6%): - in 2020 - 48% - in 2021 - 53% - in 2022 - 55%	On a regular basis	Vice-Rector for Scientific Affairs, Scientific Department, Heads of Departments	No funding required
9. Posting each professor's published scientific articles on www.scholar.google.com and ensuring that new articles are posted	Regular throughout 2021 Enter within three months and update regularly	Employees of the center, heads of departments	100 million annually for incentives. in the amount of UZS

	regularly, arranging for each article to be recognized and referenced throughout the university.			
10.	Revitalization of research work of young researchers, adaptation of scientific articles and theses to advanced international standards. Take measures to include the scientific-electronic journal "Economics and Information Technology" in the SCOPUS database. The structure of the Publishing and Editorial Scientific-Expert Council, a critical study of its activities and radical improvement of its activities.	According to the plan for 2021	Center staff and journal editors	50 million annually for incentives. in the amount of UZS
11.	In order to achieve real integration of education, science and practice by university professors, researchers and students, the "Strategy of actions on the five priority areas of development of the Republic of Uzbekistan in 2017-2021" Implementation of targeted scientific and practical research in cooperation with khokimiyats of all administrative-territorial units of the Republic, including by years: - 2020-2021 academic year - 400.0 million soums	Regular throughout the 2020-2021 school year	Employees of the center, deans of faculties, heads of departments	At the expense of the economic contract
12.	In order to further expand the scope of research, to dramatically improve the quality and effectiveness of research activities of researchers: - "Practical English", - "Secrets of publishing scientific articles in journals of Scopus, Science Direct, Web of Science", - "Econometrics", - Organization of regular refresher courses in relevant specialties, testing the results	According to the annual plan for the 2020-2021 academic year	Director of the center, heads of departments	The University, within the framework of general budget expenditures, attracting foreign grants

Section III

DEVELOPMENT OF INTERNATIONAL RELATIONS AND SCIENTIFIC COOPERATION IN THE FIELD OF EDUCATION AND RESEARCH

№	Measures	Completion time	Responsible persons	Funding volume
13.	Expanding close cooperation with the world's leading research and educational institutions, further expanding the creation of exchange programs for undergraduate and graduate students, researchers, professors (USA, UK, France, Italy, Spain, Japan, Republic of Korea) , PRC and other countries)	Regular throughout the 2020-2021 academic year	Center staff, deans, international relations department	No funding required

14.	International educational programs (Tempus, Erasmus Plus, British Council, UNWTO Knowledge Network, etc.), international financial institutions (UNDP, UNWTO, World Bank, ADB, etc.) and embassies and missions of foreign countries (JICA, KOICA, ITEC, etc.), to expand cooperation with universities and research centers, to accelerate the activities related to the receipt of educational and research grants	Regular throughout the 2020-2021 academic year	Director of the Center, Vice-Rector for International Cooperation, Deans, Department of International Relations	At the expense of the project
15.	Expanding the involvement of leading foreign experts and prominent scientists in the teaching and research process at the University, to organize training seminars for this purpose through various educational and scientific grants	In April-May Of 2021	Director of the Center, Deans, Department of International Relations	At the expense of project funds
16.	Continuous improvement of the professional skills of teachers, training and internships abroad, training of graduates in PhD and postgraduate programs, higher education and more	Throughout the academic year of 2020-2021	Rector, Vice-Rectors, Director of the Center, Deans, Department of International Relations, Heads of Departments	'El-Yurtumidi' Fund, Extra-Budgetary Funds and International Grants
17.	Establishing contacts with international organizations and foundations. Involvement of Grants in Education	On a regular basis	Central administration, deans, heads of departments, department of international relations	No funding required
18.	Membership in international e-learning resources and access to international scientific resources for faculty and students of the university	On a regular basis	Central Administration, Deans, Heads of Departments, Department of International Relations	At the expense of extra-budgetary funds
19.	Improving scientific and practical experience, professional development and knowledge of foreign languages	On a regular basis	Central Administration, Vice-Rectors, Deans, Department of International Relations	At the expense of extra-budgetary funds
20.	Enrichment and continuous updating of the university website at the level of the world's most prestigious universities and websites, entering specific information (in Uzbek, Russian, English) about each faculty, department, department.	On a regular basis	Staff of the center, deans, heads of departments, divisions	At the expense of extra-budgetary funds
21.	In order to increase the number of scientific articles in journals with a high impact factor, to organize master classes on reading articles in	On a regular basis	Director of the Center, deans, heads of departments	At the expense of extra-budgetary funds

	scientific journals with the participation of qualified scholars, to conduct master classes in the Republic and abroad..			
22.	The organization of regular publications by professors, teachers and researchers in the journals Scopus, Nature, Web of Science. Provide financial support to staff who write articles for these magazines.	On a regular basis	Director of the Center, Deans, Heads of Departments, Department of International Relations	At the expense of extra-budgetary funds
23.	Study the legal framework for training in the universities of developed countries and, based on this, develop standards that will allow to improve the activities of the university.	Within six months	Director of the Center, Deans, Heads of Departments, Department of International Relations	No funding required
24.	Forming a base of employees who graduated from the University in previous years and are currently working in high-ranking positions in Uzbekistan and abroad, as well as establishing contacts between them and the University. Creating a virtual portal "Alumni Association"	constantly	Director of the Center, Deans, Heads of Departments, Department of International Relations	No funding required
25.	To organize regular publication of the results of scientific researches of professors, teachers and researchers in prestigious foreign scientific journals, to strengthen cooperation with research centers. In particular, strengthening the activities of the scientific center, organized in cooperation with the University of South Carolina, USA.	constantly	Director of the Center, Deans, Head of Department, Department of International Relations	At the expense of extra-budgetary funds
26.	Providing modern information and communication technologies and tools, access to electronic catalogs of students, teachers and researchers around the world, scientific literature and databases, e-library database of the world's leading universities	On a regular basis	Headquarters, Deans, International Relations Department, IRC	At the expense of extra-budgetary funds
27.	Establishment of modern scientific laboratories to ensure openness for students and teachers of all universities of the Republic	Within six months	Central Director, Vice-Rectors, Deans,	At the expense of extra-budgetary funds
28.	Ensuring that students, masters and professors participate in world conferences in their fields. Including: - Each professor participates in at least one international conference during the academic year; - participation of at least two independent researchers in an international conference;	On a regular basis	Director of the Center, Vice-Rectors, Deans, Scientific Department	At the expense of extra-budgetary funds

	- participation of each doctoral student in international conferences. Establish a system of financial incentives for professors and teachers who have participated in international conferences. Reimbursement of expenses related to participation in the most prestigious conferences.			
29.	In cooperation with the Ministry of Higher and Secondary Education, invite Nobel Prize winners to cooperate with the University, organize lectures with them at least twice a year (with separate winners) and organize the process on YouTube and other social networks.	On a regular basis	Rector, Director of the Center, Vice-Rectors, Deans, International Relations and ITI and IPCT Departments	At the expense of extra-budgetary funds
30.	In order to promote the University at the international level, each faculty and department should establish close contacts with the world's leading institutes, departments, professors, exchange of information, mutual understanding.	On a regular basis	Rector, Vice-Rectors, Deans, Department of International Relations	At the expense of extra-budgetary funds

Section IV
Level of information and communication technology
and improvement in quality

№	Measures	Completion time	Responsible persons	Funding volume
31.	Complete automation of the administrative-management process, educational and scientific organizations, step-by-step transition to full paperless technology in the management process, effective implementation of e-government requirements and full implementation of educational services, including: 2020-2021.	On a regular basis	Rector, Director of the Center, Vice-Rectors, Deans, Scientific Department, International Relations Department	No funding required
32.	Completing the registration of university professors in <i>Google Scholar</i> , ORCID (Articles Published in International Scientific and Technical Databases)	October 2020	Director of the Center, deans, heads of scientific departments	No funding required
33.	Placement of electronic copies of literature in the information system of the university's official website and e-library. Creating and enriching the official page of the university in the open online encyclopedia "Wikipedia"	During 2021	Employees of the center, deans, heads of departments	No funding required
34.	Improving the formation of electronic catalogs and electronic information-library funds in the database of leading foreign information resources, providing remote access to information and library resources	Constantly during 2020	Employees of the Center, Information Technology and	No funding required

			Information Resource Centers	
35.	Majestic and Ahrefs search engine optimization (SEO) databases on the university's official website	Until December 31, 2020	Center directors	No funding required
36.	In order to widely and regularly introduce the activities of the University to universities and research centers of foreign countries www.tsue.uzve2020 regular throughout the year to keep up-to-date with new information. Introduce a new version of the Intranet locale research network in the process of teaching and research activities at the university and provide them with regular information.	regularly throughout the year 2020	Rector, Vice-Rectors, Deans, Scientific Department, Department of International Relations and Information Technology and Information Resource Centers	According to the cost estimate
37.	The study and implementation of foreign distance learning and research technologies at the university, including the use of foreign distance learning courses in the organization of the implementation of doctoral programs, scientific and educational programs	regularly throughout the year 2020	Rector, Vice-Rectors, Deans, Scientific Department, Department of International Relations and Information Technology and Information Resource Centers	No funding required

Note: This strategy will be amended as a matter of urgency, based on the requirements of higher education institutions, the tasks and responsibilities set forth in the regulations.
